NEBRASKA

## We ADVISE PARCEL POST SHIPMENTS ON GLASS CLOTH

Freight and express rates have advanced until we believe it invariably advisable to ship by parcel post. Again parcel post is far the surest prompt delivery and mail always takes preference whenever any shipping difficulties arises and in some instances where freight or express shipments go a long distance they are held at traffic centers for carload dispatches.

For our customers convenience we make the following prepaid rates for parcel post. For Kansas and Nebraska we will prepay glass cloth by parcel post for one cent per yard.

In Arkansas, Colorado, Iowa, Louisiana, Minnesota, Missouri, North Dakota, Oklahoma: Add two cents per yard.

In Alabama, Arizona, Illinois, Indiana, Mississippi, Montana, New Mexico, Ohio, South Dakota, Tennessee, Texas, Utah, Wisconsin and Wyoming: Add three cents per yard for parcel post charges.

For Maine, Massachusetts, New Hampshire and Rhode Island: Add five cents per yard for parcel post.

For all states not mentioned add four cents per yard for parcel post charges. For Canada add 6c per yard, for parcel post or express charges.

**CANADIAN CUSTOMERS.** Exchange on personal checks from Canada comes unreasonably high and will therefore only send amount of goods that check will pay for after deducting exchange from checks.

**ALL GOODS MUST BE PREPAID WHEN SHIPPED TO CANADA** and we therefore demand the 6c per yard for Glass Cloth shipments whether express or parcel post. Ten yards is the limit in one package by parcel post and on the larger orders if you desire same in any special lengths same should be stated.

Here we have a view of a porch enclosed for the winter, and of course as the glazing on the Glass Cloth does not permit a good view of surroundings two common windows were installed so that the outdoors could be viewed from inside the enclosure, and when the sun shines we would just like to have you step inside and see how much heat is actually generated, even though the porch is on the north side of the house and the sun can only strike the two frames of Glass Cloth.

The screen on this porch is on the inside of the framework and the Glass Cloth is on frames so that it only takes a few minutes to change to an open or closed porch by putting up or removing glass cloth frames.

# GLASS CLOTH

Not glass, but a fabric treated with a preparation which makes it wind and water-proof, and still generates warmth and light about the same as glazed sash. It is adapted for all outdoor forcing such as hot-bed, cold frames, and its moderate cost makes it adaptable to forcing vegetables and flowers in rows and beds when used in the form of a cold frame in any desired shape or size. It is also highly recommended for the sunny side of poultry scratching beds as it keeps out the wind and admits of plenty of light and also generates warmth. Further it is adaptable for lights in barns, sheds, stables or any outbuildings and for enclosing screened porches during the winter months.

Glass Cloth is also used for temporary greenhouses, but in this case, as well as others mentioned above, wind exposure must be considered. Don't think of placing the cloth in an exposed position without plenty of cross supports to keep the wind from flopping it continually.

We advise in using Glass Cloth to use it on well made frames, only they can be lighter material than generally used for glass sash, but the usual cross supports should be used. For greenhouses, etc., use supports lengthwise or frames every 9 inches.

**ONE DOLLAR TRIAL OFFER.** Send us \$1.00 and we will send you by Parcel Post PREPAID a piece of Glass Cloth 3x9 feet. Use or test it out in any reasonable way you choose along aside of regular glass for 10 days and if for any reason you are not perfectly satisfied with results obtained just return the Glass Cloth to us and we will refund your dollar.

We make the above offer in order to induce you to give Glass Cloth a trial, we could send you a small sample but if you should then doubt its efficiency our chance would be slim of ever getting you to give Glass Cloth a trial. The above offer gives you a safe trial and gives us the use of the best of advertising as these small trial orders are what bring us in the larger repeated orders.

**TEST IT OUT.** If you have not already tested Glass Cloth by actual use, try glass cloth on one frame and on another use common glass, now place a thermometer in each frame out of the direct rays of the sun so as to get actual heat generated and also notice the soft even light produced by the glass cloth and we will risk your order for more.

## OUR GUARANTEE

We guarantee our Glass Cloth to generate warmth and light satisfactorily when compared with regular glass sash in the following way.

Order any amount of glass cloth desired. Use or test out one-third of amount purchased in any way for ten days. If it does not give perfect satisfaction when compared with glass sash under same circumstances, return both used and unused portion of glass cloth purchased and we will pay return transportation charges and refund purchase price.

## GLASS CLOTH PRICES

1 to 5 yards at 35c per yard, 6 to 10 yards at 33c, 11 to 25 yards at 32c, 26 to 50 yards at 31c, 51 to 75 yards at 30c, 76 to 100 yards at 29c. All 35 to 36 inches wide. PARCEL POST see opposite page.

**WRITE FOR PRICES ON LARGER QUANTITIES.** We always make discounts if the market will afford it, or we will give as good discount if you just send along your orders of larger amounts and state whether you wish discount (providing we can offer same) in extra goods or returned in cash.

# Packet Seed Department

Under this department we offer you our choice of different varieties of seed. Others may do better in your locality but if you have not tried out these sorts, you can do so at a small cost.

DONT ask for small amounts in other sorts than listed under this heading as these are the only seed that we have packeted ready for orders. All other sorts are ready for shipment in bags in quantities at wholesale price.

## BEET

**CROSBY'S EGYPTIAN.** A perfect shaped blood-red beet, slightly zoned and one of the earliest and sweetest. Pkts. 5, 10 and 25c, lb. 45c.

**DETROIT DARK RED.** A very uniform beet similar to Crosby's Egyptian but a little later. A fine canner and good keeper, also good for greens.

Pkts. 5, 10 and 25c, lb. 45c.

**CRIMSON GLOBE.** A globe shaped main crop variety, beautifully zoned and free from stringiness. Pkts. 5, 10 and 25c, lb. 45c.

## BEANS

**WHITE SEEDED KENTUCKY WONDERPOLE.** Probably the earliest of the pole beans, and by far the most productive, of the stringless green podded class, meaty, sweet and tender. Pkts. 5, 10 and 25c, lb. 30c.

**GOLDEN CLUSTER POLE WAX.** Similar to above variety, only a wax pod. A perfect variety for those wishing a wax pole bean.

Pkts. 5, 10 and 25c, lb. 30c.

**CURRIES RUST PROOF.** A rust proof bean and the earliest of the black seeded beans. A heavy yielder of well shaped waxy pods. A market gardeners favorite of fine quality. Pkts. 5, 10 and 25c, lb. 30c.

**PROLIFIC BLACK WAX.** A very early, fine flavored stringless wax variety of beautiful color and shape. Pkts. 5, 10 and 25c, lb. 30c.

**WARDWELLS WAX.** An old standby for the home garden, too well known for further description. Pkts. 5, 10 and 25c, lb. 30c.

## CABBAGE

**DANISH ROUNDHEAD.** An improvement over Danish Ballhead as it is larger and earlier, with a shorter stem. Very solid headed and the best keeping cabbage yet grown. Pkts. 5, 10 and 25c, lb. \$1.55.

### COPENHAGEN MARKET CABBAGE

The best flavored, finest grained, large quick growing cabbage yet grown. It produces a large, round head one-half heavier and just as early as early Jersey Wakefield. Is a much prettier shape and therefore a better seller while the fineness and flavor is second to none. It is our choice as a first early, also to be used for later plantings as a midseason cabbage.

Pkts. 5, 10 and 25c, lb. \$1.75.

COPENHAGEN MARKET CABBAGE

## CAULIFLOWER

**EARLY SNOWBALL.** The most dependable variety grown and so far ahead of other sorts that we list no other. It is early, tender and the most sure variety to head and is now being used both for spring and fall crops.

Pkts. 5, 10 and 25c, lb. \$8.00.

## CARROT

**CHANTENAY.** An early half long, fine shaped and excellent variety in a tender carrot that will not crack open. Sweet and the best early carrot.

Pkts. 5, 10 and 25c, lb. 55c.

**DANVERS HALF LONG.** A second early variety of good quality, produces very heavy and has fine shaped root that makes it easily gathered.

Pkts. 5, 10 and 25c, lb. 55c.

## EGG PLANT

**BLACK BEAUTY.** An Improvement on the old standard Improved Spineless, bearing earlier, and more fruit on a stockier plant, while the fruit is fine and large. Pkts. 5, 10 and 25c, lb. \$3.75.

## LETTUCE

**BIG BOSTON.** The most popular forcing head lettuce, and also fine as an early head variety to be grown before hot weather. Pkts. 5, 10 & 25c, lb. 75c.

**NEW YORK or WONDERFUL.** A large, sure heading lettuce that will stand most any weather in any locality and one of the best to withstand hot weather.

Pkts. 5, 10 and 25c, lb. \$2.25.

**GRAND RAPIDS.** One of the finest forcing loose leaf varieties, and also at the top for the home garden as it grows quick and tender.

Pkts. 5, 10 and 25c, lb. 75c.

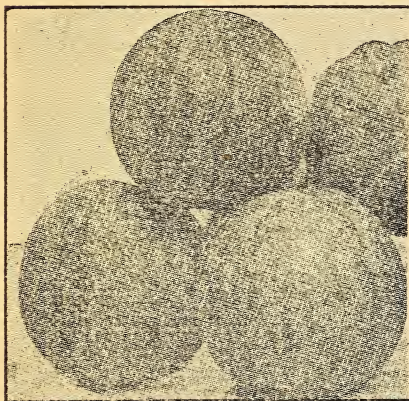

## MUSKMELON

**HONEY DEW.** A very fine flavored new melon that some seedsmen are asking a fabulous price for. Not suited for all localities but we advise you to try it out for a few seasons and if you have success it will be your favorite.

Pkts. 5, 10 and 25c, lb. \$1.10.

**POLLOCK 10-25.** Another new melon of the salmon meated class that is great favorite where ever tried. Medium sized, heavy yielder and will stand shipping and handling better than Daisy or Perfection. While the flesh is not as deep a color, it is considered equal to these two varieties by many and has the advantage of handling and keeping better. Pkts. 5, 10 and 25c, lb. \$1.25.

**ROCKY FORD.** The old standard green fleshed shipping melon and the best of the green fleshed type. Pkts. 5, 10 and 25c, lb. 75c.

**FIELD'S DAISY MUSKMELON**

**PERFECTION MUSKMELON**

**FIELD'S DAISY MUSKMELON.** A good yielding, medium size salmon meated melon with the smoothest, sweetest flavor of any muskmelon grown. For home use, once eaten you will want no other; for the market, one sample to a customer will hold him for all time against any other melon on the market unless it might be Perfection. Pkts. 5, 10 and 25c,  $\frac{1}{2}$ -lb. 80c, 1-lb. \$1.50.

**PERFECTION MUSKMELON.** A twin to the Daisy except it is larger and does not produce as many fruit, but it makes up in size, and its size makes it a first choice on the market. In conjunction with the Daisy you can get and hold the trade completely. Price same as Daisy.

## CELERY

**DWARF GOLDEN HEART.** A short stocky variety with a beautiful golden heart. Pkts. 5, 10 and 25c, lb. \$1.50.

**GOLDEN SELFBLEACHING.** Next to White Plume in earliness, fine flavor and the most popular variety grown. Pkts. 5, 10 and 25c, lb. \$2.00.

**WHITE PLUME.** Probably the easiest celery to bleach early and get ready for table use. Pkts. 5, 10 and 25c, lb. \$1.50.

**WINTER QUEEN.** The largest hearted celery grown and undoubtedly the best keeper of any winter celery. Pkts. 5, 10 and 25c, lb. \$1.50.

## CUCUMBER

**DAVIS PERFECT.** If you know of any variety that will beat this cucumber in any way we would like you to tell us about it. The Davis Perfect is a very early cucumber and its quick, tender growth makes it also desirable of later plantings. It is one of the best to keep fresh after picking, while its shape and color are perfect. It is a heavy yielder and perfect for slicing or pickles.

Pkts. 5, 10 and 25c, lb. \$1.00.

## WATERMELONS

**IRISH GREY.** A new shipping melon with a greyish green rind, is coming into place along with the Tom Watson and some prefer it. Try it out in your locality and tell us how you like it. Pkts. 5, 10 and 25c, lb. 60c.

**GEORGIA RATTLESNAKE.** A large striped melon, suited for the south or warm localities. Pkts. 5, 10 and 25c, lb. 60c.

**KLECKLY SWEET WATERMELONS.** An old variety and still on top. An early maturing, long dark green melon of medium to large size, thin rind and positively the sweetest and tenderest red fleshed melon grown. It is too tender and brittle to ship but if handled with reasonable care it makes the best melon grown for home use or nearby market. Pkts. 5, 10 and 25c, lb. 60c. All prepaid.

**TOM WATSON WATERMELONS.** Another old standby of the Kleckly class, in fact we might call it a Kleckly Sweet with just a trifle of the sweetness sacrificed for a good tough rind and a little more size. Tom Watson is now about the most popular shipping melon grown and while some claim it to be just as sweet as the Kleckly Sweet, we discount the sweetness just a trifle, however, it has as thin a rind and tough enough to stand a lot of handling which makes it a favorite with market gardeners and shippers. It ripens just a few days later than the Kleckly Sweet. Prices same as Kleckly Sweet and we will give you part of each on the 10-lb. price if you prefer.

## ONION.

**PRIZETAKER.** A straw colored onion with white flesh and mild flavor. A good keeper and the heaviest yielder of any class. Large and fine shaped. Pkts. 5, 10 and 25c, lb. \$1.60.

**SOUTHPORT WHITE GLOBE.** If you desire a white onion this is the best large globe, mild flavor and fine for green onions or mature.

Pkts. 5, 10 and 25c, lb. \$1.60.

## PARSNIP

**HOLLOW CROWN.** A heavy yielder and has a tender sweet meat. Pkts. 5, 10 and 25c, lb. 50c.

## PEAS

**THOMAS LAXATION.** The finest wrinkled pea yet introduced. Early as any and as heavy a yielder as the popular later sorts. Fine flavored and good for either home or market garden. Pkts. 5, 10 and 25c, lb. 35c.

**AMERICAN WONDER.** An old standby of the dwarf bush variety, needs no supports, the best flavor of the earlies, with medium sized pods. Pkts. 5, 10 and 25c, lb. 35c.

## PEPPER

**BELL OR BULL NOSE.** An early variety bearing a good quantity of sweet, medium to large sized fruit. Pkts. 5, 10 and 25c, lb. \$3.00.

**CHINESE GIANT.** Considered by many to be the largest of the sweet peppers and a mighty good yielder when considering size of fruit.

Pkts. 5, 10 and 25c, lb. \$5.00.

**RUBY GIANT.** A cross of several varieties of the giant pepper which has won a place as one of the best large sweet peppers. Pkts. 5, 10 and 25c, lb. \$3.75.

## PUMPKIN

**CONNECTICUT FIELD.** The great big yellow field pumpkin that yields so many big pumpkins. Pkts. 5, 10 and 25c, lb. 50c.

**KENTUCKY FIELD.** Very productive with a flavor like crooked neck squash, fine grained. Pkts. 5, 10 and 25c, lb. 40c.

**QUAKER PIE.** A sweet pumpkin used for pies and canning, has a soft shell but is a good keeper. Pkts. 5, 10 and 25c, lb. 80c.

**SMALL SUGAR.** A small sweet yellow pumpkin of the hard shelled yellow class and a favorite with many. Pkts. 5, 10 and 25c, lb. 65c.

## RADISH

**CRIMSON GIANT FORCING.** A forcing radish that will just keep on growing until it is the biggest of the earlies without getting strong. Try it.

Pkts. 5, 10 and 25c, lb. 50c.

**EARLY SCARLET TURNIP.** A fine early variety, good for forcing or outdoors. Pkts. 5, 10 and 25c, lb. 50c.

**FRENCH BREAKFAST.** Another favorite of long standing for early.

Pkts. 5, 10 and 25c, lb. 50c.

**HALF LONG DEEP SCARLET.** A midseason variety, crisp and sweet.

Pkts. 5, 10 and 25c, lb. 50c.

**NEW ICICLE.** The long white radish that is the sweetest and tenderest of the long radishes. Fairly early. Pkts. 5, 10 and 25c, lb. 50c.

## SPINACH

**BLOOMSDALE SAVOY.** A favorite variety for the market gardeners.

Pkts. 5, 10 and 25c, lb. 35c.

**LONG STANDING.** Another favorite of good quality that will stand longer without making seed. Pkts. 5, 10 and 25c, lb. 35c.

## SQUASH

**BOSTON MARROW.** A golden colored oval, medium sized fall or winter squash. Flesh salmon colored and sweet. Pkts. 5, 10 and 25c, lb. 75c.

**SYMES BLUE HUBBARD.** A little drier and sweeter than the old hubbard and a little darker blue. Claimed to be a better yielder and fast taking the place of the old standard hubbards. Pkts. 5, 10 and 25c, lb. \$1.40.

**MAMMOTH WHITE BUSH.** The large white summer squash that is tender and sweet and the favorite with many. Pkts. 5, 10 and 25c, lb. \$1.25.

## SWEET-CORN

**STOWELLS EVERGREEN.** The old deep grained sweet corn that is sweet; and worth waiting a few days for it to grow, so that you can actually eat corn instead of picking cobs, as is the case with many of the earlier varieties.

Pkts. 5, 10 and 25c, lb. 25c.

## TOMATO

**BONNIE BEST.** An early tomato of very even medium sized fruit, while it is not so large as some, it is so smooth and even sized that it makes it a more attractive tomato than most of the large later sorts.

Pkts. 5, 10 and 25c, lb. \$1.75.

**CHALKS JEWEL.** A very smooth second early tomato of good size and good yielder. A very popular canner for the north. Pkts. 5, 10 and 25c, lb. \$1.75.

**DWARE STONE.** A more vigorous variety than Dwarf Champion with a fruit as fine as new stone. Considered the best of the dwarf varieties.

Pkts. 5, 10 and 25c, lb. \$3.00.

**NEW STONE.** A standard canning variety that produces abundantly.

Pkts. 5, 10 and 25c, lb. \$1.50.

**PONDEROSA OR BEEFSTEAK.** One of the largest tomatoes with a very solid meat, fine for slicing. Pkts. 5, 10 and 25c, lb. \$3.75.

**YELLOW PEAR.** A handsome yellow, pear shaped, small tomato.

Pkts. 5, 10 and 25c, lb. \$4.00.

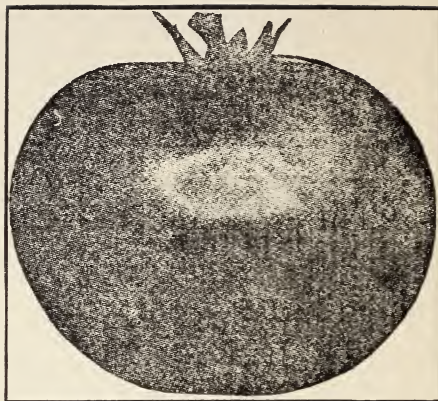

**NEW WHITE ALBINO.**

**ALBINO TOMATO.** Barteldes says this is one of the best vegetables introduced in recent years. It has a clear white meat entirely free from acid and grows on a very robust plant. Pkts. 5, 10 and 25c, lb. \$7.00.

### JOHN BAER TOMATO

The John Baer tomato will come through the different variations of seasons and averages the most marketable fruit per plant, and also the largest cash returns per plant, per season when taken for any number of consecutive years of any variety that we have tested out.

John Baer is a good sized, smooth tomato, perfectly red in color and while it may be a few days later ripening its first fruits than some of the earliest varieties. Its habit of setting plenty of fruit and maturing a large quantity of big marketable fruit, makes it a favorite with us both as a first, early and for later plantings as a main crop. When you plant tomatoes plant some John Baer and give us a chance to prove that we furnish just as choice seed as others who charge much higher prices. Pkts. 5, 10 and 25c, lb. \$2.40.

**RED HEAD TOMATO.** If you have trouble getting early tomatoes to set plenty of fruit, you want to try Red Head. It is claimed to be first early by some, and we have found it so in seasons when the early spring weather was unfavorable for the early setting of fruit. Red Head bears an enormous amount of medium to large sized, well shaped fruit and some seasons will ripen a couple pounds of fine fruit before other first early plants get well started with ripe fruit. Red Head keeps right on bearing throughout the season and never stops until frost. Give it a trial in your garden for two or three seasons and you will always plant some. Pkts. 5, 10 and 25c;  $\frac{1}{2}$  oz. 75c; 1 oz. \$1.25; 4 oz. \$4.00;  $\frac{1}{2}$  lb. \$7.00; 1 lb. \$12.00.

### RUTA BAGA

**BANGHOLM PURPLE TOP.** A mild flavored yellow variety with purple tops. Pkts. 5, 10 and 25c.

### TURNIPS

**SNOWBALL.** A very early, thin skinned turnip of the finest sweet flavor.

**PURPLE TOP STRAP LEAF.** A quick growing turnip having a flat reddish root of desirable flavor. Pkts. 5, 10 and 25c.

### NASTURTIUMS

**TALL MIXED.** A very continuous blooming plant used mostly for edging or borders. A tall variety. Pkts. 5, 10 and 25c.

**DWARF MIXED.** Same as above only low growing. Pkts. 5, 10 and 25c.

### SWEET PEAS

**MIXED GRANDIFLORA.** The old standard sweet peas and a mixture of the best of this variety. Pkts. 5, 10 and 25c.

**BEST MIXED SPENCERS.** The new waved type that is preferred by many over the old standard type. A mixture of the finest and best colors.

Pkts. 5, 10 and 25c.

### FIFTY CENTS WORTH OF SEED FOR TEN CENTS

For every dollars worth of packet seed you order you may select 50c worth, which we will send you free if you will include 10c to pay for packing and postage. This is for seed in 5, 10 and 25c packets only. We do this because it takes as much time to put up a dollar order as it does frequently a 25c order and about the same expense outside of the actual seed, and the seed is actually no more expensive in small packets than the packets are including labor in filling and preparing order. We take this system in order to divide with you and appreciate your larger orders. All seed is prepaid.

Any Grower can Grow a Plant like this

### No set back when transplanted

For melons, cucumbers and other vegetables that you do not usually transplant, we advise planting the seed in the bands about two weeks earlier than you would out-doors and you will gain two to four weeks in maturing the crop. With these latter plants be careful and not have them too big and tender when transplanting in the open and disturb the roots as little as possible.

Always leave the bands right on the plants when setting in the field and this will cause the roots to go deeper into the soil and make stronger plants.

### PRICES OF READY TO USE LOCKED PLANT BANDS

Size Inches	Depth	Number per Case	One Case at	Five Cases	Ten Cases	Broken Cases per 1,000 bands	Packages of 250 prepaid
1½x1½	2½	6,000	\$11.10	\$53.70	\$100.15	\$2.10	\$1.00
2x2	2½	5,000	9.90	47.00	89.30	2.25	1.25
3x3	3	2,500	7.50	35.60	67.65	3.40	1.50
4x4	3	2,000	7.20	34.20	65.00	4.10	2.00

### BANDS SAME AS ABOVE WITH FOLDING BOTTOMS

2x2	2	4,000	\$9.35	\$44.40	\$84.35	\$2.65	\$1.50
3x3	3	2,000	7.30	34.70	65.95	4.15	2.00
4x4	3	1,500	6.75	32.00	60.80	5.10	2.25

**FREE**—In order to get you to try out these bands, we will this season give you free with each order of bands, enough seed to plant them if you will tell us what seed you prefer, Egg plant, Peppers and Red Head and White Albino tomatoes excepted. These varieties we will give you  $\frac{1}{4}$  enough seed to plant bands ordered.

**ALL PRICES** except amounts marked prepaid are F. O. B. here or factory in Minnesota, and we will ship most economical way unless you state how and from where you wish shipment made.

## PLANT TABLETS

**PLANT TABLETS** are composed of condensed material that is used in fertilizers and soil builders and is in a form that makes it instantly available for plant food instead of having to lay and decompose for a season or two before the vegetation can absorb it. It only takes a few packages of these tablets to be of the same contents that a whole sack of fertilizer would make and the tablets have the advantage of lower shipping rates, odorless to use and giving almost instant growth to plants. Try them out on your house plants and on your outdoor vegetation of special importance and if you are not perfectly satisfied with results we will cheerfully refund your money.

PRICES:—30 tablets, 10c; 100 tablets, 25c; 250 tablets, 50c. All prepaid. One dozen packages of any one size at a discount of 10%.

## PLANT BANDS

Plant bands have been in use for several years in the shape of plain paper strips which needed folding when setting up. We here offer you something new in bands both with and without bottoms. These bands are folded and locked together so that you simply pick them up one at a time and set them in the flat or box and they are **ACTUALLY READY TO USE**. See front cover and you will understand them and how they are used.

For tomatoes, cabbage, peppers, etc. you can gain about one month in maturing fruit by using these bands in the hotbed or cold frame, by planting them one plant to a band or transplanting the seedlings in the bands 30 to 60 days earlier than you would plant them outdoors.

# Bulk Seed Department

**WHOLESALE BULK PLAN.** In offering seed under this plan we eliminate the greater expense of the catalog system of selling seed.

Our seed is all sent out in cloth bags containing only the seed, and inside label stating variety of seed and in large quantities which eliminates waste and expense of weighing up, and dishing out, small quantities.

**GUARANTEE.** We guarantee all our seed to be choice stock and strong germination and will gladly refund your money for any seed not perfectly what we claim it to be. We can't guarantee a crop but it is our business to put out seed with a vitality unquestionable.

## SEED SWEET POTATOES

We have grown for us a quantity of choice seed sweet potatoes, kiln dried, clear of black rot, soil rot and of all other dangerous diseases. Well sorted for seed and of a size that will produce an abundance of plants. These seed are grown for us in Missouri and put in storage right from the field which eliminates handling and bruising and enables us to guarantee to deliver them to the station in first-class condition.

All shipments are made in barrels and boxes and paper lined when necessary. And they should reach customer in good condition, but owing to delays in transportation which sometimes happen we ask our customers to be prompt in receiving all shipments when they arrive and if in bad condition be sure to have bad order properly made out before accepting the shipments from transportation company as we can not be responsible for delays in delivery which sometimes is a detriment to sweet potatoes. We further urge having the hotbed ready for the seed upon their arrival.

We can furnish the following:

Nancy Hall, Pumpkin Yam, Yellow Yam (running), Porto Rico, Red Jersey, Early Triumph, Yellow Jersey, Golden Queen, Southern Queen, Red Bermuda, Yellow Nansmond, or Red Nansmond, any variety, per bushel, \$2.35. Any variety, 10 lbs. or less, at 20c per lb. Over 10 lbs., at 15c. Add 25c to bushel prices for half bushel lots. Deduct 25c from bushel prices on 5 bushel lots. Will gladly quote prices on larger quantities.

ALL SHIPMENTS made F. O. B. Neosho, Mo., direct from storage and we advise placing all orders early and stating date you desire shipment made.

## WATERMELON

**MAN'S BEST WAY.** The air is kept wholesome by diffusion through the cloth curtain. There are no drafts under the hover. It hovers 100 chicks and has enough ventilation for 2,400.

## CHICK HOVER AND HOT BED WARMER

The best chick hover on the market and constructed with a flue to carry off any gases from the lamp, which makes it desirable to use for keeping up the temperature in our hotbeds or coldframes during cloudy weather when you get no heat from the sun. Simply dig a small hole at the side of your hotbed making a gate to open between so that you can let the warmth pass into the bed without opening bed in cold weather. Price prepaid \$13.50.

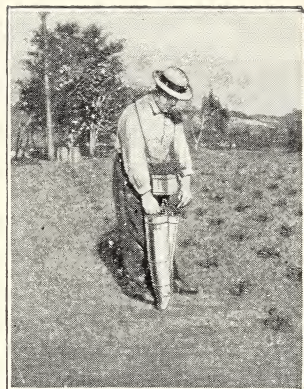

Descriptive catalog with illustrations as a chick brooder sent on request.

The most practical tool for transplanting tobacco, tomato, cabbage, sweet potato, peppers, cauliflower, egg plant, strawberries and all similar plants.

Yes, and it beats a hoe for planting melons, corn, etc.

8,000 to 15,000 plants can be set per day, every one watered and no lame back.

### MASTER RAPID PLANT SETTER

The roots of each plant are placed in the ground almost as natural as if they grew there, and firmly set by the absorption of water so that the plant takes hold and starts to grow at once, making it possible to set plants in much more adverse weather than could be done in any other way.

Every plant setter guaranteed to give perfect satisfaction or your money refunded. The setter is made of heavy block tin with strong steel jaws and brass fittings and carries water for 125 to 150 plants at each filling.

The writer, A. S. Turner, has personally used one of the above machines for the past few years and finds it all that the manufacturers claim for it. If you only have a few hundred plants to set per season it will be a great investment at a small price. The Plant Setter actually sets plants better than common hand work, saves much valuable time and you don't get the awful feelings in the back and knees.

PREPAID BY PARCEL POST .....\$6.00 Each

### FROM OUR MAIL BAG

The plant setter I bought of you last spring proved very successful. I wouldn't take one hundred dollars for it if I couldn't buy another.

(T. J. Rundell, Norton, Kans. Jan. 17, '21.)

You have forgotten to send me my catalog this year and I need some glass cloth. It beats glass.

(Lionel Beakbane, Ganesport, N. Y. Feb. 8, '21.)

Please mail to me 50 yards glass cloth, Money order enclosed. I sent for trial order last year and am well satisfied with results obtained.

(H. E. McCrea, Clinton, Ind. Sept. 26, '21.)

## JUST CHAT

You of course expected us to cut the price of Glass Cloth this season, but if you will refer to our previous catalogs and prices for the past five years you will see that WE NEVER boosted the price to war prices, and never profiteered like the general run of big business did. We use cotton for the base of glass cloth. Cotton is 75% higher than a year ago and 100% higher than before the war. We are glad it is for the people who raise the cotton usually earn by hard labor the price which they receive, and if other lines of produce could at this time be leveled up according to actual labor and expense we would all be better off.

Plant forcers frames which we have been furnishing, and which we have been having made by a wire work factory are too high when considering transportation, for us to advise our customers to buy them this season and we are therefore not quoting in this catalog. If you only want a few make them yourself out of light lumber and cover with glass cloth.

Seed is back to pre-war prices and we have as nice a lot of first class new seed with strong vitality as you can get anywhere. We are not spending one cent on seed advertising and are as saving of space in our catalog as possible; so you will understand why we can undersell many of the other exclusive seed houses which spend so much on advertising and lithographing.

We get so many nice letters appreciating our service and goods that it is hard to answer them all. We heartily thank all our customers for their friendly letters and suggestions and assure you they are read with pleasure. Just keep them coming but remember we are not bidding for bubbles and are not getting them. Below we copy a few extracts of the many letters which we receive, all genuine and unsolicited as we write no personal letters asking for testimonials.

Today I was over at Ormond and visited the winter home of JOHN D. ROCKEFELLER. He has a Greenhouse covered with glass cloth, the light was very soft and nice and plants seemed to be doing well. Are you the manufacturer of this product? If so please quote prices. (From A. N. Hull, Florida, Nov. 30, 1921.)

We have sold Mr. Rockefeller 250 yards glass cloth.

We should be obliged if you will send us your quotations by return mail on 100 yards glass cloth. We have used your cloth during the last three years and have found it very satisfactory.

(Jan. 26, 1921: From Bankhead Orchard Co., Kelowna, Canada.)

Kindly send me your catalog. I am interested in getting a supply of glass cloth. I used your glass cloth while at Armstrong and recommended it to Mr. Buck'ey, who has found it very satisfactory indeed. (J. E. Britton, Dept. of Agri., Canada.)

We have sold Mr. Buckley about two thousand yards of glass cloth.

I feel that it is due you, to tell you that the glass cloth purchased from you last spring has proved to be very satisfactory in every way and certainly was economical. Of course, it is not as permanent as glass but there is a whole lot of margin between two yards of your cloth, and \$8.25 that a Brooklyn firm wanted me to pay for a single glazed hotbed sash. (H. Haupt, Jr., Long Island, N. Y. Aug. 15, '21.)
